

Instructions to run the project on the ec2 instance:

1. Login to ec2 instance
2. Choose the zip file.
3. Once you have selected the file, click on the upload button.
4. You will receive a message if the extraction was successful.
5. Else, you will receive an error in case there was an error in extracting it or it was not a zip file.
6. Click on run and you will be redirected to another page with the diagram and grade form.
7. Check your diagram and enter the grades. Then click on submit.
8. If the grades were entered you will get a confirmation and you can click on the button to "grade another UML".
